**Featured Quote of the Month:** *"It is actually the quality of DellaRatta's voice that grows on me more & more with repeated listenings. At first I felt that Rick's strengths as a pianist were foremost, but with time I have come to understand that DellaRatta's skill as a vocalist is not to be underestimated. His voice has quite a haunting quality to it, being slightly androgynous in tone, sometimes ghostly... sometimes sexy."* – Jen Karpin, Green Mtn Jazz Messenger
