

Dear Madeleine and Brian,

I just received a call from our Senior Event Coordinator Debra Cerritelli asking me if I had checked my email and seen these wonderful comments so I went over to my computer and THERE THEY WERE!

Based on some of the wording of these wonderful comments I would love to try and EXCEED the \$25,000 raised with this step that you saw in our [3 Minute Video](#).

Below is the simple step (see Examples 1 & 2) that the organization in that video followed and I which I will now assist you to follow too!

**EXAMPLE #1 (see below)** - In this example this Grant Recipient from Baltimore found SIX people in addition to her who ALSO sent the Personal Fundraising Link out to THEIR friends, family and supporters and returned each of the lists back to her.

She then combined ALL of the names and comments into 1 email and sent this list to us below (SEE Example 1 Below).

**EXAMPLE #2 (see also below)** - In this example the same step was followed with a total of 15 TEAM MEMBERS - all of whom ALSO sent the Personal Fundraising Link out to THEIR friends, family and supporters and compiled THEIR own VIP lists.

**NEXT STEP: Please review all each of the comments that you have received and make a list of some of your most enthusiastic comments.**

**Then, contact those most enthusiastic people and while you are thanking them for their support, ask each of THEM if they would ALSO be willing to do the same as**

**you and compile a VIP List of THEIR favorite friends, family, and supporters whom THEY would love to see get the first class treatment at this event as VIP GUESTS OF HONOR of the Jazz for Peace Foundation.**

Please review this next step above (along with the 2 ACTUAL examples of this technique below) and let me know if you have any questions.

Looking forward to your reply,  
John

Here you go, cousin... In the Jazz for Peace you-tube video. I was able to see how one man Rick Della Ratta and his team started a grant funding program to help and support not-for-profit organizations all around the world. Rick Della Ratta started out as a musician in jazz music and used his jazz music to unite people. He considered starting the funding program after 911. The goal of his

program is to help people from where they are today to where they want to go. Rick Della Ratta and his program have received recognition from President Obama and other senators as well as other important people worldwide. He have a website to tell you how to get started in growing your empowerment tree. It is said that a lot of people feel Jazz For Peace has become one of the most significant cultural events of our time.
